

Setting Up a Security Watchlist

To set up a Security Watchlist, go to Preferences and select "Manage Security Watchlist."

The screenshot shows the website's navigation menu with 'Preferences' highlighted. Below, the 'Your Preference Options' section is visible. Under 'Page Content Management', the 'Manage Security Watchlist' link is highlighted with a red box. The description for this link reads: 'This page allows users to manage their scrolling tickers and security watchlists.'

Type a ticker into the "Quick Add" box and select "Go."

The screenshot shows the 'Watchlist Management' page. At the top, there is a 'Start Security Search at:' field and a 'Quick Add:' field containing the ticker 'cbsh'. A 'Go' button is next to the 'Quick Add' field. Below this, there are 'Reset', 'Save', and 'Clear List' buttons. The 'Securities List' on the left contains a list of tickers including AGILENT TECHNOLOGIES INC, ALCOA INC, and DWS EQUITY TR. The 'Securities Watchlist' on the right is currently empty. An 'Add' button with a right-pointing arrow and a 'Remove' button with a left-pointing arrow are positioned between the two lists.

Once you have all of your tickers added to the Securities Watchlist box, select Save. A confirmation message will appear telling you that your Watchlist was successfully saved.

Watchlist Management
Watchlist Save was successful.
