How We Will Calculate Your Balance: We use a method called “average daily balance (including new transactions).” See your CommercePremier Line of Credit Agreement for more details.

Standard APR: Your standard APRs will be disclosed in your Account Opening Disclosure with your new checks approximately 7-10 business days after Account approval.

Prime Rate: The Prime Rate used to determine the APR on your Account is the U.S. Prime Rate published in *The Wall Street Journal* in its column called “Money Rates” on the last business day of each month. Although each Daily Periodic Rate is determined by an index published prior to the first day of each calendar month, the respective Daily Periodic Rate will only become effective and charged as of the first day of the monthly billing period following the respective calendar month in which the index is so published. No representation is made that the U.S. Prime Rate is the lowest, the best or the favored rate of interest. If for any reason The Wall Street Journal no longer publishes the “Money Rates” column, then we will choose a new index based on comparable information. An increase in the Prime Rate will cause your interest rate to increase and may cause your minimum monthly payment to increase.
