

Schnucks CommercePayments™ Testimonial: Transcript

Jennifer:

I'm Jennifer Ruckman, and I'm the director of accounting for Schnuck Markets.

We're excited to be celebrating our 80th anniversary this year. We're family owned and operated in the St. Louis region. We're a grocery and pharmacy retailer, and we have 117 stores now in five states.

We pay approximately 6000 vendors per year.

Before Commerce Bank, we were very manual; lots of paper checks.

Katie:

I'm Katie Corrigan. I'm an account manager with Commerce Bank. We wanted to streamline their accounts payable department, and by bringing in the card option, that was our first step to help cut out as many checks that they were cutting daily.

Jennifer:

We give our vendors the option of a payment method, and credit card is our preferred payment method. Any form of electronic payment is more efficient and faster for our vendors.

Commerce has helped streamline our business and has made it more efficient. And they've helped our vendor relationships by providing more opportunities for faster payments.

They are a true partner. They feel like an extension of our own team at Schnucks.

Katie:

Honestly, it feels more like a friendship. I feel like we really just mold together and make our program successful by being one partner.

Jennifer:

I would recommend Commerce 100%. They are one of our most valued service providers and we appreciate their partnership through the years.
