Drive Up Pups:

That was the experience was was great for me and Ghost.

We got to do something that, you know, experience something that we're not used to, you know, usually doing and, the drive up pups was great for me.

Credit Cards:

I opened my credit card up and, you know, it's better than what I expected. Yeah. It definitely helps, like, structure where, you know, your money's going and, good and bad things is going to.

Money Tips:

I learned that, you know, some stuff I don't really need. The way I spend money now, well, want to spend money in the future is like, I just would use, like, needs and wants as as a category. It helps me. If I need to spend it then I will, but if I don't really need to then I just won't.

Guilty pleasure? Yeah... Just clothes I don't need!
